Sky High, Ocean Deep

AN ADVENTURE WITH BILL MAUDRU

Private round-trip jet flight between Napa and San Diego for 4
Private 1.5-day deep-sea fishing experience for 4
2 nights' accommodations in San Diego (2 rooms)

The multi-talented Bill Maudru, founder of Cello & Maudru Construction, is your jet pilot, boat captain and gracious host for a private deep-sea fishing expedition offered by Cello & Maudru for 4, in one of the hottest spots for deep-sea fishing: the waters of San Diego.

One afternoon, you'll meet Bill at the Napa County airport, where he'll fly you in style, via a Citation Mustang jet to San Diego. Check in to your Mission Bay accommodations, where you have a two-night stay, and then the evening is yours to enjoy the San Diego scene. But be sure to turn in at a decent hour, because your next day will be filled to the gills.

You'll meet Bill—now wearing his boat captain/fishing expedition leader's hat—bright and early at the Marina Village dock at Mission Bay. From there, you'll head out onto the deep blue Pacific to fish some of Bill's favorite spots for tuna, bass, rockfish, lingcod, and more. You're sure to be hooked at day's end, so Bill will take you out again the next morning, as well, for a half-day of fishing before your departure.

That afternoon, back to the airport, Bill will sail you and your delicious catch back across the California skyline before gently bringing you back to earth (and reality) as the sun prepares to set on the day and your one-of-a-kind experience.

NOTE: *To be scheduled for a mutually agreeable date prior to September 2017. Meals and ground transportation not included. All attendees must have a valid fishing license with an ocean endorsement.*
