CELINE REGALIA APPOINTED EXECUTIVE DIRECTOR OF COLLABRIA CARE

April 2, 2019, Napa, CA —The board of directors of Collabria Care has appointed Celine Regalia as Executive Director. Regalia has filled the role on an interim basis, since February.

“We are fortunate to have a leader of Celine’s caliber to guide Collabria Care into the future. Her unflinching commitment to this community is an inspiration to all of us,” said board chair Deborah Macdonald.

In her previous role as Director of Operations, she oversaw the Collabria Day Program, Human Resources, Volunteer Services, Facilities, and Medical Records, as well as new program development including UpValley Village and Information & Assistance for Napa County. As Day Program Director, Regalia was instrumental in building the innovative, award-winning program, which she led for more than 20 years.

“It has been my honor to be associated with this incredible organization for the last 20 years and to positively impact the lives of so many in our community. Each day, I witness the compassionate care provided by our staff and volunteers and am humbled to have been chosen to carry forward the 40-year legacy of Collabria Care,” said Regalia.

As a highly respected leader in the field of senior care, Regalia successfully developed collaborative partnerships with state and local agencies and community organizations, while significantly expanding outreach services and community education programs.

She has served as president and board member of the California Association for Adult Day Services (CAADS) and has advised multiple state agencies on a variety of aspects of senior care. Locally, Regalia Co-Chairs Napa County’s Healthy Aging Population Initiative and is a representative for the older component plan for Live Healthy Napa County.

Regalia holds master’s degrees in both Medical Social Work and Speech Pathology from California State University at San Jose.

Collabria Care – Collabria Hospice, formerly Napa Valley Hospice & Adult Day Services, is the leading center for community-based care delivery and resources in the North Bay, for those facing the transitions of aging, Alzheimer’s disease and other serious illness or the end of life.
